

SHELVING UNITS

Lyon has over 100 years of commitment in designing storage systems that help organize, store, and secure products while maximizing workspace.

T-Post Uprights

Patented design, formed of tough, durable, hot rolled steel affords easy shelf adjustment on 1-1/2" centers using shelf clips.

Shelf Clips

Quickly lock into place, on either side of uprights. Disengages easily to re-position shelves, no tools needed.

Open Shelving Section

Ideal for storing packaged stock and other material where high visibility is a concern.

Closed Shelving Section

Can be used to divide work and storage space into separate areas.

Shelves

Patented Box "W" design provides added support to the front and rear of the shelf. Lapped and welded shelf corners provide added strength and durability. Available in 22-Gauge Box "W", 20-Gauge Box "W", 18-Gauge Box "W" and 18-Gauge Flanged. Capacity from 300 lbs to 1,300 lbs.

22-Gauge
Medium-Duty, Box "W"
shelves provide up to
600 lb. capacity*.

20-Gauge
Heavy-Duty, Box "W"
shelves provide up to
900 lb. capacity*.

18-Gauge
Extra Heavy-Duty, Box "W"
shelves provide up to
1300 lb. capacity*.

18-Gauge
Traditional Flanged
shelves provide up
to 700 lb. capacity*.

**Capacities are based on evenly distributed load. Maximum load capacity: 8000 lbs. per section and a maximum of 18" shelf spacing with no seismic.*
